## How to change/select a different role

Prior to this revision, users had to add themselves as “another registrant” to be able to select a different role and register for training. Users no longer need to do that. Users can now update their Class Questionnaire form, and new training dates for the new role will appear. See steps below.

### Step1. Update Class Questionnaire

- Within your Dashboard, click on the green progress bar located to the far right of your name
- Click on **Class Questionnaire**

Dashboard

This is your Dashboard. It provides an overview of your entire account.  
Click **Add Registrant Profile** to create a profile and make selection.  
Use the **progress bar** to track progress, view or navigate to other forms.

The screenshot shows the 'Registrant Profile(s)' dashboard. At the top right, there is a blue button labeled '+ ADD ANOTHER REGISTRANT'. Below this, a list of registrant profiles is displayed. Each profile has a name, a 'Go To Registrant Application' link, and a progress bar. The 'Testing Tester' profile has a green progress bar at 100%. An orange arrow points from the 'Testing Tester' profile to a dropdown menu that is open. The dropdown menu contains the following options: Registrant Information, CalMHSA Required LMS Training by Role, Class Questionnaire, Training Selection, and Registration Complete. Other profiles include 'Test1 Tester', 'Test3 Tester', 'Testprescriber Tester', 'Virtual Tester' (80% progress), and 'Test Combined' (75% progress). The 'Virtual Tester' and 'Test Combined' profiles have 'Complete Application' and 'Add Selections' buttons.

- The screen will display any previous selection made, select a different role
  - You may change your Training Modality as well, if you prefer.
- Click **Go to Next Step**
  - **Note:** if when clicking Go to Next Step takes you back to Dashboard, click on the progress bar to the far right of your name again, and click Training Selection
